

Part 1: Foundation Concepts 1

- CHAPTER 1 Introduction to Cost Management 3
- CHAPTER 2 Basic Cost Management Concepts 28
- CHAPTER 3 Cost Behavior 67
- CHAPTER 4 Activity-Based Costing 121

Part 2: Fundamental Costing and Control 178

- CHAPTER 5 Product and Service Costing: Job-Order System 180
- CHAPTER 6 Product and Service Costing: A Process Systems Approach 226
- CHAPTER 7 Allocating Costs of Support Departments and Joint Products 276
- CHAPTER 8 Budgeting for Planning and Control 325
- CHAPTER 9 Standard Costing: A Functional-Based Control Approach 382
- CHAPTER 10 Decentralization: Responsibility Accounting, Performance Evaluation, and Transfer Pricing 430

Part 3: Advanced Costing and Control 484

- CHAPTER 11 Strategic Cost Management 486
- CHAPTER 12 Activity-Based Management 548
- CHAPTER 13 The Balanced Scorecard: Strategic-Based Control 590
- CHAPTER 14 Quality Cost Management 621
- CHAPTER 15 Productivity Measurement and Control 664
- CHAPTER 16 Environmental Costs: Measurement and Control 695

Part 4: Decision Making 734

- CHAPTER 17 Cost-Volume-Profit Analysis 736
- CHAPTER 18 Activity Resource Usage Model and Tactical Decision Making 781
- CHAPTER 19 Pricing and Profitability Analysis 823
- CHAPTER 20 Capital Investment 878
- CHAPTER 21 Inventory Management: Economic Order Quantity, JIT, and the Theory of Constraints 929

Glossary 967

Subject Index 979

Company Index 1003

Part 1: Foundation Concepts 1

CHAPTER 1	Introduction to Cost Management 3
	Financial Accounting versus Cost Management 3
	Factors Affecting Cost Management 4
	Global Competition 5 Growth of the Service Industry 5 Advances in Information Technology 5 Advances in the Manufacturing Environment 6 Customer Orientation 8 New Product Development 8 Total Quality Management 8 Time as a Competitive Element 9 Efficiency 9
	A Systems Approach 10
	Cost Management: A Cross-Functional Perspective 11
	The Need for Flexibility 11 Behavioral Impact of Cost Information 12
	The Role of Today's Cost and Management Accountant 12
	Line and Staff Positions 12 Information for Planning, Controlling, Continuous Improvement, and Decision Making 14
	Accounting and Ethical Conduct 15
	Benefits of Ethical Behavior 15 Standards of Ethical Conduct for Management Accountants 16
	Certification 16
	The Certificate in Management Accounting 18 The Certificate in Public Accounting 18 The Certificate in Internal Auditing 18
CHAPTER 2	Basic Cost Management Concepts 28
	A Systems Framework 29
	Accounting Information Systems 29 Relationship to Other Operational Systems and Functions 32 Different Systems for Different Purposes 32
	Cost Assignment: Direct Tracing, Driver Tracing, and Allocation 34
	Cost Objects 35 Accuracy of Assignments 35
	Product and Service Costs 37
	Different Costs for Different Purposes 38 Product Costs and External Financial Reporting 39
	External Financial Statements 41
	Income Statement: Manufacturing Firm 42 Income Statement: Service Organization 45
	Functional-Based and Activity-Based Cost Management Systems 45
	Functional-Based Cost Management Systems: A Brief Overview 45
	Activity-Based Cost Management Systems: A Brief Overview 46
	Choice of a Cost Management System 48
CHAPTER 3	Cost Behavior 67
	Basics of Cost Behavior 68
	Measures of Activity Output 68 Fixed Costs 68 Variable Costs 70
	Linearity Assumption 71 Mixed Costs 72 Time Horizon 73

Resources, Activities, and Cost Behavior 74

Flexible Resources 75 Committed Resources 75 Implications for Control and Decision Making 76 Step-Cost Behavior 77 Activities and Mixed Cost Behavior 79

Methods for Separating Mixed Costs into Fixed and Variable Components 80

The High-Low Method 81 Scatterplot Method 82 The Method of Least Squares 85 Using Regression Programs 87

Reliability of Cost Formulas 89

Hypothesis Test of Parameters 89 Goodness of Fit Measures 89 Confidence Intervals 90

Multiple Regression 93**The Learning Curve and Nonlinear Cost Behavior 95**

Cumulative Average-Time Learning Curve 95 Incremental Unit-Time Learning Curve 97

Managerial Judgment 98**CHAPTER 4 Activity-Based Costing 121****Unit-Level Product Costing 122**

Overhead Assignment: Plantwide Rates 123 Disposition of Overhead Variances 124 Overhead Application: Departmental Rates 126

Limitations of Plantwide and Departmental Rates 127

Non-Unit-Related Overhead Costs 127 Product Diversity 128 An Example Illustrating the Failure of Unit-Based Overhead Rates 128

Activity-Based Costing System 133

Activity Identification, Definition, and Classification 134 Assigning Costs to Activities 138 Assigning Secondary Activity Costs to Primary Activities 139 Cost Objects and Bills of Activities 140 Activity Rates and Product Costing 140 Classifying Activities 142

Reducing the Size and Complexity of an ABC System 142

Approximately Relevant ABC Systems 143 Equally Accurate Reduced ABC Systems 144

ABC System Concepts 146

ABC Database 147 ABC and ERP Systems 148

Part 2: Fundamental Costing and Control 178**CHAPTER 5 Product and Service Costing: Job-Order System 180****Characteristics of the Production Process 180**

Manufacturing Firms versus Service Firms 181 Unique versus Standardized Products and Services 184

Setting Up the Cost Accounting System 185

Cost Accumulation 186 Cost Measurement 186 Cost Assignment 188 Choosing the Activity Level 190

The Job-Order Costing System: General Description 191

Overview of the Job-Order Costing System 191 Materials Requisitions 192 Job Time Tickets 193 Overhead Application 194 Unit Cost Calculation 195

	Job-Order Costing: Specific Cost Flow Description	195
	Accounting for Direct Materials 196	Accounting for Direct Labor Cost 196
	Accounting for Overhead 198	Accounting for Finished Goods Inventory 199
	Accounting for Cost of Goods Sold 201	Accounting for Nonmanufacturing Costs 203
	Single versus Multiple Overhead Rates	204
	Appendix: Accounting for Spoilage in a Traditional Job-Order System	206
CHAPTER 6	Product and Service Costing: A Process Systems Approach	226
	Process-Costing Systems: Basic Operational and Cost Concepts	226
	Cost Flows 227	The Production Report 229
	Unit Costs	230
	Process Costing with No Work-in-Process Inventories	231
	Service Organizations 231	JIT Manufacturing Firms 232
	The Role of Activity-Based Costing	232
	Process Costing with Ending Work-in-Process Inventories	233
	Equivalent Units as Output Measures 233	Cost of Production Report Illustrated 234
	Nonuniform Application of Productive Inputs 235	Beginning Work-in-Process Inventories 236
	FIFO Costing Method	236
	Step 1: Physical Flow Analysis 237	Step 2: Calculation of Equivalent Units 238
	Step 3: Computation of Unit Cost 238	Step 4: Valuation of Inventories 238
	Step 5: Cost Reconciliation 239	Journal Entries 241
	Weighted Average Costing Method	241
	Step 1: Physical Flow Analysis 241	Step 2: Calculation of Equivalent Units 241
	Step 3: Computation of Unit Cost 242	Step 4: Valuation of Inventories 243
	Step 5: Cost Reconciliation 243	Production Report 243
	FIFO Compared with Weighted Average 243	
	Treatment of Transferred-In Goods	245
	Step 1: Physical Flow Schedule 247	Step 2: Calculation of Equivalent Units 247
	Step 3: Computation of Unit Costs 247	Step 4: Valuation of Inventories 247
	Operation Costing	249
	Basics of Operation Costing 249	Operation Costing Example 250
	Appendix: Spoiled Units	252
CHAPTER 7	Allocating Costs of Support Departments and Joint Products	276
	An Overview of Cost Allocation	276
	Types of Departments 277	Types of Allocation Bases 279
	Objectives of Allocation	280
	Allocating One Department's Costs to Another Department	282
	A Single Charging Rate 282	Dual Charging Rates 283
	Budgeted versus Actual Usage 285	Fixed versus Variable Bases: A Note of Caution 287

Choosing a Support Department Cost Allocation Method 288

Direct Method of Allocation 288 Sequential Method of Allocation 290 Reciprocal Method of Allocation 291 Comparison of the Three Methods 294

Departmental Overhead Rates and Product Costing 295

Accounting for Joint Production Processes 296

Cost Separability and the Need for Allocation 297 Distinction and Similarity between Joint Products and By-Products 298 Accounting for Joint Product Costs 299 Allocation Based on Relative Market Value 301

CHAPTER 8 Budgeting for Planning and Control 325

The Role of Budgeting in Planning and Control 326

Purposes of Budgeting 326 The Budgeting Process 327 Gathering Information for Budgeting 329

Preparing the Operating Budget 331

Operating Budgets for Merchandising and Service Firms 337

Preparing the Financial Budget 338

The Cash Budget 338 Budgeted Balance Sheet 342 Shortcomings of the Traditional Master Budgeting Process 342

Flexible Budgets for Planning and Control 345

Static Budgets versus Flexible Budgets 345

Activity-Based Budgets 351

The Behavioral Dimension of Budgeting 355

Characteristics of a Good Budgetary System 356

CHAPTER 9 Standard Costing: A Functional-Based Control Approach 382

Developing Unit Input Standards 383

Establishing Standards 383 Usage of Standard Costing Systems 384

Standard Cost Sheets 385

Variance Analysis and Accounting: Direct Materials and Direct Labor 387

Calculating Direct Materials Price and Usage Variances 388

Accounting for Direct Materials Price and Usage Variances 391

Calculating Direct Labor Variances 391 Accounting for the Direct

Labor Rate and Efficiency Variances 393 Investigating Direct

Materials and Labor Variances 393 Disposition of Direct Materials and Direct Labor Variances 395

Variance Analysis: Overhead Costs 396

Four-Variance Method: The Two Variable Overhead Variances 396

Four-Variance Analysis: The Two Fixed Overhead Variances 400

Accounting for Overhead Variances 404 Two- and Three-Variance Analyses 405

Mix and Yield Variances: Materials and Labor 407

Direct Materials Mix and Yield Variances 407 Direct Labor Mix and Yield Variances 408

CHAPTER 10 **Decentralization: Responsibility Accounting, Performance Evaluation, and Transfer Pricing** 430

Responsibility Accounting 431

Types of Responsibility Centers 431 The Role of Information and Accountability 431

Decentralization 432

Reasons for Decentralization 432 The Units of Decentralization 434

Measuring the Performance of Investment Centers 435

Return on Investment 435 Residual Income 439 Economic Value Added 441 Multiple Measures of Performance 444

Measuring and Rewarding the Performance of Managers 445

Incentive Pay for Managers—Encouraging Goal Congruence 445
Managerial Rewards 445 Measuring Performance in the
Multinational Firm 448

Transfer Pricing 450

The Impact of Transfer Pricing on Income 450

Setting Transfer Prices 451

Market Price 451 Negotiated Transfer Prices 452 Cost-Based
Transfer Prices 457 Transfer Pricing and the Multinational
Firm 459

Part 3: **Advanced Costing and Control** 484

CHAPTER 11 **Strategic Cost Management** 486

Strategic Cost Management: Basic Concepts 487

Strategic Positioning: The Key to Creating and Sustaining a
Competitive Advantage 487 Value-Chain Framework, Linkages, and
Activities 489 Organizational Activities and Cost Drivers 491
Operational Activities and Drivers 492

Value-Chain Analysis 493

Exploiting Internal Linkages 493 Exploiting Supplier Linkages 496
Exploiting Customer Linkages 498

Life-Cycle Cost Management 501

Product Life-Cycle Viewpoints 501 Interactive Viewpoint 503 Role
of Target Costing 507

Just-In-Time (JIT) Manufacturing and Purchasing 509

Inventory Effects 510 Plant Layout 511 Grouping of
Employees 512 Employee Empowerment 513 Total Quality
Control 513

JIT and Its Effect on the Cost Management System 513

Traceability of Overhead Costs 514 Product Costing 515 JIT's
Effect on Job-Order and Process-Costing Systems 516 Backflush
Costing 516

CHAPTER 12 **Activity-Based Management** 548

The Relationship of Activity-Based Costing and Activity-
Based Management 549

Process Value Analysis	550
Driver Analysis: Defining Root Causes	550
Activity Analysis: Identifying and Assessing Value Content	550
Assessing Activity Performance	553
Financial Measures of Activity Efficiency	554
Reporting Value- and Non-Value-Added Costs	554
Trend Reporting of Non-Value-Added Costs	556
Drivers and Behavioral Effects	557
The Role of Kaizen Standards	557
Benchmarking	558
Activity Flexible Budgeting	559
Activity Capacity Management	562
Implementing Activity-Based Management	563
Discussion of the ABM Implementation Model	563
Why ABM Implementations Fail	565
Financial-Based versus Activity-Based Responsibility Accounting	566
Assigning Responsibility	567
Establishing Performance Measures	568
Evaluating Performance	569
Assigning Rewards	570

CHAPTER 13 The Balanced Scorecard: Strategic-Based Control 590

Activity-Based versus Strategic-Based Responsibility Accounting	591
Assigning Responsibility	592
Establishing Performance Measures	592
Performance Measurement and Evaluation	594
Assigning Rewards	595
Basic Concepts of the Balanced Scorecard	595
Strategy Translation	595
The Financial Perspective, Objectives, and Measures	596
Customer Perspective, Objectives, and Measures	598
Process Perspective, Objectives, and Measures	599
Learning and Growth Perspective	602
Linking Measures to Strategy	603
The Concept of a Testable Strategy	604
Strategic Feedback	605
Strategic Alignment	606
Communicating the Strategy	606
Targets and Incentives	607
Resource Allocation	608

CHAPTER 14 Quality Cost Management 621

Costs of Quality	622
The Meaning of Quality	623
Defining Quality Costs	624
Quality Cost Measurement	625
Reporting Quality Costs	628
Quality Cost Reports	628
Distribution of Quality Costs: The Acceptable Quality View	628
Distribution of Quality Costs: Zero-Defects View	630
The Role of Activity-Based Cost Management	632
Quality Cost Information and Decision Making	633
Decision Making Contexts	633
Certifying Quality Through ISO 9000	635
Controlling Quality Costs	637
Choosing the Quality Standard	637
Types of Quality Performance Reports	639

CHAPTER 15	Productivity Measurement and Control	664
	Productive Efficiency	665
	Partial Productivity Measurement	665
	Partial Productivity Measurement Defined	666
	Partial Measures and Measuring Changes in Productive Efficiency	667
	Advantages of Partial Measures	668
	Disadvantages of Partial Measures	668
	Total Productivity Measurement	668
	Profile Productivity Measurement	668
	Profit-Linked Productivity Measurement	670
	Price-Recovery Component	672
	Measuring Changes in Activity and Process Efficiency	672
	Activity Productivity Analysis	673
	Process Productivity Analysis	675
	Process Productivity Model	676
	Quality and Productivity	679
CHAPTER 16	Environmental Costs: Measurement and Control	695
	Defining, Measuring, and Controlling Environmental Costs	696
	The Ecoefficiency Paradigm	696
	Competing Paradigms	698
	Environmental Costs Defined	699
	Environmental Cost Report	700
	Environmental Cost Reduction	702
	An Environmental Financial Report	704
	Environmental Costing	705
	Environmental Product Costs	705
	Unit-Based Environmental Cost Assignments	705
	Activity-Based Environmental Cost Assignments	706
	Life-Cycle Cost Assessment	707
	Product Life Cycle	707
	Assessment Stages	708
	Strategic-Based Environmental Responsibility Accounting	711
	Environmental Perspective	711
	The Role of Activity Management	713

Part 4: Decision Making 734

CHAPTER 17	Cost-Volume-Profit Analysis	736
	The Break-Even Point in Units	737
	Operating-Income Approach	737
	Contribution-Margin Approach	738
	Profit Targets	739
	After-Tax Profit Targets	740
	Break-Even Point in Sales Dollars	741
	Profit Targets	744
	Comparison of the Two Approaches	745
	Multiple-Product Analysis	745
	Break-Even Point in Units	745
	Sales Dollars Approach	748
	Graphical Representation of CVP Relationships	749
	The Profit-Volume Graph	749
	The Cost-Volume-Profit Graph	749
	Assumptions of Cost-Volume-Profit Analysis	751
	Changes in the CVP Variables	753
	Introducing Risk and Uncertainty	755
	Sensitivity Analysis and CVP	759

CVP Analysis and Activity-Based Costing 759
 Example Comparing Conventional and ABC Analysis 760 Strategic
 Implications: Conventional CVP Analysis versus ABC Analysis 761
 CVP Analysis and JIT 762

CHAPTER 18 Activity Resource Usage Model and Tactical Decision Making 781

Tactical Decision Making 782
 The Tactical Decision-Making Process 782 Qualitative Factors 784
 Relevant Costs and Revenues 785
 Relevant Costs Illustrated 785 Irrelevant Cost Illustrated 786
 Relevant Costs and Benefits in International Trade 786
 Relevancy, Cost Behavior, and the Activity Resource Usage
 Model 788
 Flexible Resources 788 Committed Resources 788
 Illustrative Examples of Tactical Decision Making 790
 Make-or-Buy Decisions 790 Keep-or-Drop Decisions 794 Special-
 Order Decisions 797 Decisions to Sell or Process Further 799
 Relevant Costing and Ethical Behavior 801

CHAPTER 19 Pricing and Profitability Analysis 823

Basic Pricing Concepts 824
 Demand and Supply 824 Price Elasticity of Demand 824 Market
 Structure and Price 825
 Pricing Policies 826
 Cost-Based Pricing 826 Target Costing and Pricing 828 Other
 Pricing Policies 829
 The Legal System and Pricing 829
 Predatory Pricing 829 Price Discrimination 830 Ethics 831
 Measuring Profit 832
 Reasons for Measuring Profit 832 Absorption-Costing Approach to
 Measuring Profit 834 Variable-Costing Approach to Measuring
 Profit 836
 Profitability of Segments 839
 Profit by Product Line 839 Divisional Profit 843 Customer
 Profitability 843 Overall Profit 845
 Analysis of Profit-Related Variances 846
 Sales Price and Price Volume Variances 846 Contribution Margin
 Variance 847 Market Share and Market Size Variances 848
 The Product Life Cycle 849
 Limitations of Profit Measurement 852

CHAPTER 20 Capital Investment 878

Capital Investment Decisions 879
 Payback and Accounting Rate of Return: Nondiscounting
 Methods 881
 Payback Period 881 Accounting Rate of Return 883

	The Net Present Value Method	883
	The Meaning of NPV 884 Weighted Average Cost of Capital 884 An Example Illustrating Weighted Average Cost of Capital 885	
	Internal Rate of Return	885
	Example with Uniform Cash Flows 885 IRR and Uneven Cash Flows 887	
	NPV versus IRR: Mutually Exclusive Projects	887
	NPV Compared with IRR 888 Example: Mutually Exclusive Projects 890	
	Computing After-Tax Cash Flows	890
	Inflationary Adjustments 892 Conversion of Gross Cash Flows to After-Tax Cash Flows 892	
	Capital Investment: Advanced Technology and Environmental Considerations	899
	How Investment Differs 900 How Estimates of Operating Cash Flows Differ 900 An Example: Investing in Advanced Technology 901 Salvage Value 902 Discount Rates 903	
	Appendix A: Present Value Concepts	905
	Future Value 905 Present Value 906 Present Value of an Uneven Series of Cash Flows 906 Present Value of a Uniform Series of Cash Flows 907	
	Appendix B: Present Value Tables	908
CHAPTER 21	Inventory Management: Economic Order Quantity, JIT, and the Theory of Constraints	929
	Just-in-Case Inventory Management	930
	Justifying Inventory 930 Economic Order Quantity: A Model for Balancing Acquisition and Carrying Costs 931 Calculating EOQ 932 When to Order or Produce 933 Demand Uncertainty and Reordering 933 An Example Involving Setups 934 EOQ and Inventory Management 934	
	JIT Inventory Management	935
	A Pull System 936 Setup and Carrying Costs: The JIT Approach 937 Due-Date Performance: The JIT Solution 938 Avoidance of Shutdown and Process Reliability: The JIT Approach 938 Discounts and Price Increases: JIT Purchasing versus Holding Inventories 941 JIT's Limitations 941	
	Basic Concepts of Constrained Optimization	943
	One Binding Internal Constraint 943 Internal Binding Constraint and External Binding Constraint 944 Multiple Internal Binding Constraints 944	
	Theory of Constraints	947
	Operational Measures 947 Five-Step Method for Improving Performance 949	
	Glossary	967
	Subject Index	979
	Company Index	1003
