Preface 1

Chapter 1: Welcome to Moodle as a Curriculum and Information Management System (CIMS)! 5

What is Moodle? 5

A VLE, LMS, and CMS 6

Using Moodle as a CIMS 6

Installing Moodle 7

Installing MAMP and XAMPP packages 8

Time for action – installing the Mac OS X package 8

Time for action – installing the Windows package 10

Basic setup and customization of your Moodle site 18

Time for action – basic customization 19

Time for action – customizing the label area of the front page 23

Time for action – adding the Main Menu block 26

Installing third party contributions 27

Blocks and modules 27

Time for action – installing the My Courses block 28

Time for action – installing the Attendance package 31

Installing other plugins (themes) 34

Time for action – installing the Aardvark Pro original theme 34

Summary 37

Chapter 2: Building the Foundation—Creating Categories and Courses 39

Course categories 40

Manual creation of course categories 40

Time for action – manually creating course categories 40

Teacher account creation 46

Time for action – creating teacher accounts 46

Using the Bulk Course Upload tool 52

Time for action – installing the Bulk Course Upload tool **53**
Summary **61**
Chapter 3: Student Account Creation and Enrollment **63**
Bulk account creation and course enrollment **64**
Time for action – enrolling students when creating their accounts **64**
Time for action – checking the enrollment status from the course context **70**
Time for action – checking enrollment status from the user's profile page **73**
Bulk enrollment for existing users **76**
Time for action – preparing the CSV file **76**
Time for action – enroll existing users **77**
Other enrollment options 80
Enrollment plugins 81
CIMS enrollment review 84
Summary **84**
Chapter 4: Incorporating Educational Standards **85**
Implementing standard policies and procedures in your Moodle site **85**
Attendance standards **86**
Bulk setup of the attendance module **86**
Time for action – creating a template course **87**
Time for action – setting up the attendance template **89**
Time for action – importing the attendance template to other courses **94**
Grading standards **98**
Time for action – creating a standard grading scale **98**
Time for action – creating a Gradebook template **100**
Time for action – preparing the target course **103**
Time for action – importing the Gradebook template **104**
Implementing a final grade submission process **105**
The policy 106
The process 106
Time for action – locking courses for grade retrieval **107**
Setting up a program-wide testing procedure **109**
Time for action – an exam administered outside of Moodle **109**
An exam administered via the Moodle quiz module **113**
Summary **113**
Chapter 5: Enabling your Moodle Site to Function as an Information Portal **115**
Modifying display settings **116**
Time for action – removing course lists from the category page **116**
Time for action – increasing the detailed summary setting **119**
Time for action – increasing the number of courses displayed in a user's profile **121**

Expanding content display possibilities 122
Time for action – installation of Content Pages block 122
Time for action – customizing the Content Pages block 126
Customization of third party themes 128
Time for action – customizing the menu bar 129
Time for action – customizing the submenus 130
Time for action – adding links to the submenu items 132
Time for action – adjusting the display style of the Content 134
Pages admin block 134
Time for action – customizing the logo 136
Summary 137

Chapter 6: Customized Roles 139
Permissions and roles 140
Creating a censored student role 142
Time for action – creating and using a censored student role 142
Assistant administrator role 146
Time for action – creating and using an assistant administrator role 146
Time for action – testing the role 148
Administrative monitor role 152
Time for action – creating and using an administrative monitor role 153
Time for action – assigning and testing the role 154
The Mentor, Advisor, and Parental Monitor role 157
Time for action – creating and using the Parental Monitor role 157
Time for action – creating a new account and assigning the role to it 158
Time for action – installing the Mentees block 161
Time for action – checking the role functionality 163
Summary 166

Chapter 7: Advanced Data Access and Display 167
The Enhanced User Administration block 168
Time for action – installation and use of the Enhanced User Admin block 168
Installation and use of PHPMyAdmin 173
Time for action – installing and using PHPMyAdmin 173
Installation and basic use of the Custom SQL query tool 176
Time for action – install and experiment with the Custom SQL query tool 176
SQL queries 178
Time for action – creating a sample query 178
Installation and basic setup of the embedded Xataface database application 181
Time for action – installation and basic setup of Xataface 181
Time for action – setup of our Xataface application 186

Time for action – limiting database table access **190**
Time for action – another Xataface security measure **192**
Summary **195**

Chapter 8: Setting Up a Mini SIS **197**
Custom user profile fields **198**
Time for action – setting up a user profile field for assessment test scores **198**
Time for action – a profile field for program enrollment information **201**
Time for action – populating the fields **202**
Using the user profile fields as the search criteria **206**
Time for action – searching using the Bulk user actions tool **206**
Time for action – searching using PHPMyAdmin **209**
The Xataface database 'backside' application **211**
Time for action – customizing the Xataface table display **212**
Time for action – setting up relationships in Xataface **215**
Time for action – using Xataface to modify core Moodle data **218**
Time for action – Xataface as an enrollment table maintenance tool **222**
Summary **225**

Chapter 9: Promoting Efficient Communication **227**
Using Moodle as a hub for internal information distribution, collaboration, and communication **228**
Facilitating intra- or inter-departmental or program communication, collaboration, and information flow 228
Time for action – setting up the meta course **229**
Time for action – creating a group inside the meta course **231**
Time for action – setting up the forums inside the meta course **234**
Building a mentor, homeroom, advisor, or counselor system **237**
Time for action – setting up a mentor, advisor, or counseling system **238**
Feedback systems—using the questionnaire module **243**
Time for action – installing and using the questionnaire module **243**
Summary **249**

Chapter 10: Advanced Enrollment Plugin **251**
Introducing the Registration Enrollment plugin **252**
Time for action – installing the Registration Enrollment plugin **252**
Time for action – creating and populating the user profile fields **253**
Time for action – setting up the Registration Enrollment plugin (default site-wide settings) **256**
Time for action – registration enrollment system settings (course level) **261**
Testing the Registration Enrollment plugin **264**
Time for action – testing the priority enrollment period setting for an eligible student **264**

Time for action – testing the priority enrollment period for an ineligible student **267**
Time for action – testing the Registration Enrollment plugin for a non-eligible student **268**
Time for action – testing the course capacity setting of the Registration Enrollment plugin **269**
Time for action – testing the Registration Enrollment plugin base criteria **270**
Time for action – testing the Registration Enrollment plugin after the period has ended **271**
Time for action – testing the Registration Enrollment plugin Allowed Enrollments setting **272**
Testing the Registration Enrollment Plugin—a review 274
A note on Moodle customization 275
Summary **276**
Pop Quiz Answers **277**
Chapter 3 **277**
Chapter 5 **277**
Chapter 6 **277**
Chapter 7 **278**
Chapter 8 **278**
Chapter 10 **278**
Index **279**
